monthly

IBI-EDEBB Grad Student Mini-Symposium

Friday – October 2, 2015 – 4:15 p.m.
EPFL – room SV1717a

“Soft, Multimodal Neural Interfaces: Technology, Integration and Implementation to Surface Implants”

Arthur Hirsch
Lacour Lab (LSBI)

“Identifying Novel Transcriptional Regulators of Brown Fat Cell Differentiation Using an Integrative Genomic Approach”

Rachana Pradhan
Deplancke Lab (LSBG)

“Single-Microparticle Observation on Chip: Integrating Electrokinetic Actuators and Microfluidics”

Samuel Kilchenmann
Guiducci Lab (CLSE)

session chair: Elena Katsyuba (Awerx Lab)
organizing faculty: Prof. Bruno Correia & Prof. Matteo Dal Peraro

Followed by a friendly get-together around pizza & beer, sponsored by the IBI and kindly organized by Patrick Sandoz (van der Goot Lab) and Petar Šćepanović (Fellay Lab)

→ Next IBI-EDEBB Mini-Symposium: November 6, 2015, 4:15 PM
→ See current Bioengineering seminar calendar at http://bioengineering.epfl.ch/seminars
